

# Perth Region NRM & Waterwise on the Farm

would like to offer interested growers and irrigators:

## Free Irrigation Audit Service

Your irrigation system is a vital part of your business and getting to know its current performance and limitations may assist you to maximise production, reduce pumping and fertiliser costs and plan and manage your limited water resource.

The audit service will provide a report on:

### *Irrigation System Efficiency Benchmarks*

- Distribution Uniformity % (highlights under watered areas)
- Coefficient of Uniformity % (uniformity as an average)
- Mean Application Rate (mm per hour)
- Scheduling Coefficient (efficiency factor)

### *Other components of the Audit include*

- Checking emitter flows and operating pressure – spec (if available) and actual
- Field soil texture analysis (water holding capacity and Readily Available Water estimate)
- Production of a basic water budget

Audits are expected to take 1-2 hours and it is requested that landholders be present for the process of the audit.

**To register your interest, please contact:**

**David Gibb**
