The Swan Region Strategy *for* Natural Resource Management

December 2004

Natural Heritage Trust
Helping Communities Helping Australia

Swan
Avon
INTEGRATED
CATCHMENT
MANAGEMENT

The development and preparation of this document was performed by a strategic planning project team directed and managed by Damian Crilly.

The Swan Catchment Council would like to acknowledge the hard work and input of a wide range of individuals, agencies, industry and community bodies that have helped develop and assemble this Strategy (see Acknowledgments).

In December 2004, the Australian and Western Australian Governments agreed to accredit this Swan Region Strategy for Natural Resource Management (NRM) as the basis for further investment under government NRM programs.

Electronic copies of this publication are available on the Swan Catchment Council website at www.swancatchmentcouncil.org. Printed or CD-ROM copies may be obtained from the Swan Catchment Council.

Appendices are provided as a CD-ROM with this folder.
